

Full-Length, Heavy-Duty  
NTEP Legal-for-Trade

# TRUCK SCALES

and Connected Equipment

## ARMOR® Electronic Truck Scales

General Purpose, Easy Installation, Heavy-Duty  
Truck Scales with Superior Strength Construction

- Pour-in-place concrete or superior-strength steel deck models.
- NTEP legal for trade up to 14-ft wide.
- Standard capacities up to 135 tons.
- Standard sizes up to 125-ft length (custom sizes available).
- Rodent protection steel conduit is standard throughout the scale.
- Arrives fully prepared for installation with load cell stands pre-installed.
- Machined precision quality with robotic welding accuracy.
- Stainless steel load cells and junction box.
- Easy-lift, no-bolt access covers.
- Optional guide rails available.
- Optional grain dump grating available.

LEGAL FOR TRADE

## Guardian® Hydraulic Truck Scales

Impervious Against Lightning and Water Damage  
Engineered for Extremely Hostile Environments

- Lifetime load cell warranty for the SST stainless steel hydraulic cells.
- Pour-in-place concrete or superior-strength steel deck models.
- Superb accuracy and longevity in hostile environments.
- Hydraulic load cells are the longest-lasting load cells on the market.
- Standard sizes up to 117-ft length (custom sizes available).
- The hydraulic SST load cells can operate fully submerged underwater.
- Low-profile and pit-type truck scale models available.
- Single source USA supplier ensures compatibility.
- NTEP legal for trade up to 11-ft wide.
- Standard capacities up to 135 tons.
- Optional guide rails available.

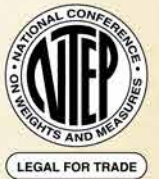

## YUKON® Off-Road Truck Scales

Massive 150-Ton Capacity and Incredibly-High 70-Ton CLC with Widths up to 16-Ft Wide

- Built specifically for the mining industry and off-road vehicles.
- Available with impervious hydraulic or electronic load cells.
- Pour-in-place concrete or superior-strength steel deck models.
- 70-ton concentrated load capacity for off-road vehicle's weight density.
- Environmentally-sealed (IP68) stainless steel load cells.
- Standard sizes up to 80-ft length (custom sizes available).
- Durable baked-on, anti-corrosion powder paint.
- NTEP legal for trade up to 16-ft wide.
- Extra-thick, heavy-duty steel deck plate.
- Optional guide rails available.

# WinVRS

## VEHICLE RECORDING SYSTEM

Cardinal's WinVRS software keeps traffic moving over your scale by providing fast and accurate collection of data on vehicles, accounts, orders, and materials.

## SNAPSTREAM WIRELESS SYSTEMS

SnapStream is a fully-integrated NTEP legal-for-trade wireless truck scale system that can save on installation costs.

## ICAN DIGITAL JUNCTION BOX

The iCan intelligent junction box features analog to digital conversion for real-time load cell diagnostics and monitoring.

## UNATTENDED SYSTEMS / WEIGHT INDICATORS

Cardinal offers a selection of weight indicators and unmanned weighing systems to compliment your scale.

## REMOTE DISPLAYS - TRAFFIC COORDINATION

Cardinal's giant SB500 has 5-inch-high, dual-row LED digits of truck scale weights for long-distance visibility up to 250 ft.
